Snowflake QuickStart Service

So, you have decided to move to Snowflake. Get started with Snowflake with a KPI Partners QuickStart Package. With the KPI Partners QuickStart Snowflake Package, your team will work side-by-side with a SnowPro Certified Snowflake Architect to learn Snowflake best practices through a series of workshops.

KPI Partners is a consulting company recognized twice by Gartner as one of the top data and analytics consulting companies in the world. KPI is a top Snowflake partner with multiple referenceable Snowflake customers, Snowflake certified resources (both in North America and offshore) and pre-built solutions and migration utilities for Snowflake. Go to https://www.kpipartners.com/tech/snowflake to find out more.

The workshops are organized in three areas:

Snowflake Management Best Practices Workshops

- Database Management
- Virtual Warehouse Management
- Security
- Dev Ops & Data Recovery
- Cost Management
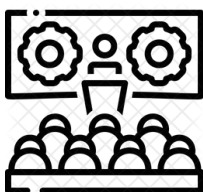

Snowflake Development Best Practices Workshops

- Data Ingestion and ETL
- Connecting to existing BI tools
- Integrating Snowflake into your current architecture

A plan for migrating your 1st Use Case to Snowflake

- Identify a use case or workload to migrate to Snowflake
- Determine scope of migration (Db only, Db + ETL, etc.)
- Assess automated vs. manual approaches to migration
- Migration plan with resources and timeline

Topics covered in the Workshop include:

- Snowflake Capabilities & Features
- High-Level Review of Relevant Capabilities & Features
- Use Case Overviews & Alignment
- Implementation Standards
- Considerations for Extensibility
- Conventions Used within Scripts

- Coding Standards
- Implementation
- Best-Practices Design
- Walk through Script Content
- Script customization
- Script Deployment & Testing

Cost and Duration

- Duration: 1 week to deliver all workshops and with 1 day prior to workshops for planning and 1-day post workshop for any follow up items
- Cost: $10,960 (travel costs extra if client wants in person workshops)
- Resources (2): Snowflake Architect and Engagement Lead and Offshore Snowflake Architect and ETL Specialist

Quick Start Benefits

- With a focus on knowledge transfer, your team will be able to leverage the value of Snowflake for your organization quickly
- With guidance from the Solutions Architect, your team will be taught Snowflake best practices
- Identify a use case to migrate to Snowflake and present your management with a fully costed migration plan to get a quick win with Snowflake
